

CREATE

Colorado Resource for Emergency And Trauma Education

COLORADO RURAL HEALTH CENTER
The State Office of Rural Health

The CREATE program is managed by the Colorado Rural Health Center and funded by the Colorado Department of Public Health and Environment

The CREATE grant program has maximum funding amounts, and will pay no more than 50% of the following amounts, unless a financial waiver application has been submitted to and approved by the Financial Waiver Review Committee. These prices include tuition, books, and allowable fees for all courses. Reasonable expenses for lodging and travel costs may be funded in addition to the course cost. Mileage reimbursement is limited to the current rate allowed by the State of Colorado.

Courses with “NR” following the title of the course require successful completion of the National Registry Exam to receive reimbursement. Students enrolled in courses requiring successful completion of the National Registry exam will be given 90 days from the end date of the course to pass the exam. The Standard Course Prices are set with the intention to help cover a percentage of the cost of the National Registry Exam.
